ROD AND REEL COMBINATIONS

"At I.G Hoosen, our mission is to equip fishing enthusiasts with affordable quality gear, enhancing their experiences on the water. Through innovative designs, sustainable practices, and a deep commitment to customer satisfaction, we strive to foster a community united by passion for the sport and respect for the environment. Whether casting lines in serene lakes or battling the mighty ocean currents, we aim to be the trusted companion on every angler's journey, inspiring unforgettable moments and memories that last a lifetime."

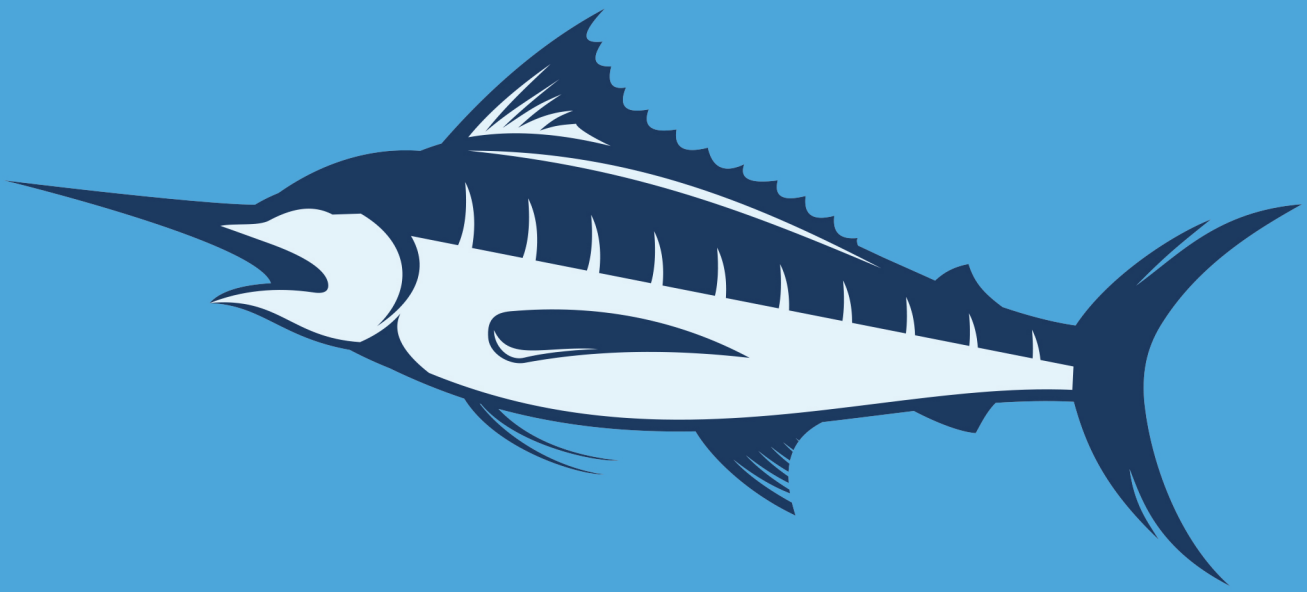
KNIVES



In the realm of fishing, a tool as indispensable as the rod and reel, is the fishing knife. Often overlooked in favor of top-tier angling gear, these trusty blades are the unsung heroes of the angling world.
From cutting line to performing on-the-fly repairs,
a quality fishing knife can make all the difference between a successful outing and a frustrating one.

STOCKCODE	DESCRIPTION
BRP36019	12 IN 1 MULTI TOOL

SAFETY TIPS

GENERAL SAFETY SUGGESTIONS

- Never go fishing alone. Always fish with someone else and ideally, with two other people. This is especially important when rock fishing.
- Let somebody know the location of your fishing trip, who you are going with and an approximate time you will be back.
- Carry a charged mobile phone with you at all times.
- Wear non-slip shoes and take care to avoid slipping or cutting yourself on sharp, rocky edges.
- Wear lightweight garments worn in layers. Bulky woollen jumpers become extremely heavy and difficult to remove if you fall in the water.
- Carry a first aid kit with you.
- Be SunSmart. Wear sun protective clothing, use SPF30+ (or higher) sunscreen and lip balm, wear an appropriate hat, seek shade where possible and wear sunglasses.
- Take adequate drinking water.

ROCK FISHING

- Make sure you have a thorough understanding of the area where you are fishing, including the tidal behaviour, accessibility to the area and an escape plan.
- Fish in a group of at least three people and always stay in sight of each other.
- Never wear waders when rock fishing. These can become heavy if you fall in the water.
- Obey all danger signs.
- Do not turn your back on the sea.

SURF FISHING

- Learn how to read the surf and how to identify and avoid rips before you begin surf fishing.
- Do not enter rips to fish.
- Go to gentle sloping beaches with a non-threatening wave pattern. These are ideal for safe surf fishing.

BOAT FISHING

- Plan carefully before going out on the water. Monitor weather patterns and swells before launching.
- Make sure all your safety equipment, including a radio, is in good working order before you go out in the water. Also check fuel levels before you leave.
- Have your motor and boat serviced regularly.
- Update your boating knowledge regularly and practice your skills.
- Always wear a life jacket when boat fishing.

Stay safe while fishing and remember to always practice catch and release.
