Suited for heavier tasks, Agdor is one of Hults Bruk's axe oldest lines. They have thicker handles without the HB logo, a US sourced leather sheath, and feature Yankee and Montreal patterns. With some finishing touches, like extra sharpening and thinning the handle, Agdor axes can become high-performance Swedish axes.

All Hults Bruk axe handles are made in Sweden using grade A American hickory wood. Each handle is sanded smooth, and treated with boiled linseed oil to help protect the wood.

Agdor axe handles are thicker and more rounded than premium handles. The natural material allows the handle to be thinned or shaped by the end user.
